

# Year 7 HT 3:

## Deep Learning Project

It is the intention of Ormiston Forge Academy to provide opportunities across the curriculum for students to become confident and empowered learners who can access material in diverse forms, communicate with clarity in a range of creative formats in order that they are able to function as citizens in a diverse, ever changing and interconnected world. Research projects encourage the development of a range of independent learning skills and encourage students to make decisions about their learning based on their

## BIG STATEMENT: Africa: a diverse continent
